"The glue that holds my brand together is in the process, artificial intelligence as a creative partner. Thinking of the computer as an intellectual and creative partner can lead to completely new aesthetic experiences, making the computer analogous to art."

↓ **Peter Colbert**

petercolbert.com

"Art to me is translating reality or what we see in our heads from a muddy, rough idea to something with great clarity and simplicity — just the bare essence, if you will. But 'simple' doesn't mean easy by any means."

Blake Emory

blakeemory.com

"'Zebra Love' is without a doubt the trademark of my work. It pulls from realistic proportions and implies them to neo-modernism. This simple yet satisfying art form represents the theory of passion, love and nature's grand design."
